PROFILE

I'm a Software Engineer with 3 years of experience building high-performance, scalable web applications. I thrive on solving problems and picking up new tech quickly, and I've worked on projects that boosted user engagement and streamlined performance. Skilled in React, Next.js, Vue.js, Node.js, and NestJS , I'm excited to bring my skills to a collaborative team and help drive innovation.

PROFESSIONAL EXPERIENCE

Projetsolaire
Paris, France

Frontend Developer
- Worked as a Front-End Developer on **Projetsolaire**, a solar energy web platform, building and maintaining user-facing features using **Vue.js**, **Vuex**, and **Vue Router**.
- Contributed to the mobile application development using **React Native**, building cross-platform features for iOS and Android. Integrated APIs, managed application state, and ensured consistent UI/UX and performance across mobile devices.

Vatemp
Arizona, USA

Frontend developer
- Worked as a frontend developer, building dynamic and user-friendly web applications using **React** and integrating them seamlessly with **Flask**-powered backends.
- Focused on developing **real estate-related products**, enhancing user experience through responsive and intuitive UI/UX designs.

Recognize Design
Addis Ababa, Ethiopia

Fullstack Developer
- Developed high-performance web applications using modern technologies such as Astro.js, WordPress, Next.js, and Node.js.
- My focus was on building scalable, maintainable solutions aligned with industry best practices. I optimized application performance and collaborated closely with clients to ensure their needs were met, delivering projects efficiently within Agile frameworks.

Yeab Futures
Addis Ababa, Ethiopia

Fullstack Developer
- Served as a full-stack developer, using modern technologies like Next.js, NestJS,Flask, Fast Api, and Django to build scalable, high-performance products
- I led the backend team in architecting solutions that ensured seamless integration and optimal performance across the stack, while also designing intuitive, responsive interfaces for enhanced user engagement.

SKILLS

SPECIALITIES
Python ∘ JavaScript / TypeScript ∘ DevOps

FRAMEWORKS I WORKED WITH
NodeJS ∘ ReactJS ∘ Nextjs ∘ Nestjs ∘ Django ∘ Flask ∘ Fast Api

OTHERS
Scrappy ∘ Docker ∘ CI/CD ∘ PostgreSQL ∘ MySQL ∘ Strapi CMS ∘ AWS ∘ Digital Ocean

PROJECTS

Projetsolaire 🔗
Frontend Developer
Projetsolaire is a digital platform focused on solar energy solutions, offering tools for photovoltaic system planning, project management, and solar installation workflows for both professionals and private users in the renewable energy sector.
