PROFILE

I am a passionate **software engineer** with a love for problem-solving. *The thrill of discovering a solution to a complex problem is what drives me in programming.* My core stack is **React, Next.js, Node.js, Nestjs, Django**. I am always looking to learn new technologies.

PROFESSIONAL EXPERIENCE

Yeab Futures

Addis Ababa, Ethiopia

Fullstack Developer

- At Yeab Future, I worked as a full-stack developer with the MERN stack as my primary technology stack.
- My role included leading frontend development on key projects, where I designed and implemented user interfaces that were both intuitive and responsive.
- Collaborating closely with the backend team, I ensured seamless integration and optimal performance across the entire stack.

Recognize Design

Addis Ababa, Ethiopia

Fullstack Developer

- At Recognize Design, I developed high-performance web applications using cutting-edge technologies like Astrojs, Wordpress, Next.js, and Node.js.
- I focused on creating scalable, maintainable solutions while following industry best practices.
- My work involved optimizing performance, collaborating closely with clients to understand their needs, and delivering projects using Agile methodologies.

SKILLS

SPECIALITIES

Python • JavaScript / TypeScript • DevOps

FRAMEWORKS I WORKED WITH

NodeJS • ReactJS • Nextjs • Nestjs • Django

OTHERS

MongoDB • Docker • CI/CD • PostgreSQL • Strapi CMS
